EU END-OF-LIFE VEHICLES DIRECTIVE (ELV) DECLARATION CERTIFICATE

Directive 2000/53/EC of the European Parliament and of the Council on End-of-Life vehicles prohibits the use of Lead, Mercury, Cadmium or Hexavalent Chromium in materials and components of vehicles put on the market after 1 July 2003.

Linear Technology Corporation hereby confirms that all products conform to the Directive 2000/53/EC or the applicable ELV requirement.

Linear Technology Corporation's TO-220, DDPAK, SOT223 and TO247 packages are currently assembled with a Soft Solder Die Attach material that contains Lead (Pb). These products fall under the Materials and components exempted from Article 4(2)(a), that is exemption 8e - Lead in high melting temperature type solders (i.e. lead-based alloys containing 85 % by weight or more lead).

Paul Chantalat
Vice President, Quality and Reliability
